Transport Home Learning Ideas

It would be great if you and your child could enjoy this book, 'Cool Cars' by Tony Mitton and Ant Parker, together:

https://www.youtube.com/watch?v=2EQFJfzu68k

Here are some car themed activities you could try:

- Cars are (usually!) shiny – can you find other shiny objects around the house? (see attached treasure basket list for ideas)
- Can you make a set of traffic lights? What colours will you need?
- Stop! And Go! game – move around the house and take it in turns to give the instructions (www.twinkl.co.uk/resource/t-t-27705-stop-and-go-road-signs or make your own red and green signs)
- Fast and slow game – moving in different ways, practice moving at different speeds
- Musical instruments – can you stop and go when playing? Can you play fast and slow?
- Car wash – do you have any toy cars you could clean? Or maybe even a real one! This clip shows CBeebie's Maddie Moate telling us how a car wash works: www.youtube.com/watch?v=zsCnB6YvBCs
- Make your own plastic bottle car from recycled materials (instructions attached)
- Experiment moving toy cars across different surfaces. Which surfaces help the car to travel fast? Which make it slower?
- Pushing toy cars down a ramp. Whose car will win the race?
- Looking out the window. Can you see any cars? How many? What colours are they?
