

Bingo builder

Can you make your own bingo cards?
What will you use as bingo numbers?
Now you can play bingo!

play a board game

Playing a board game with someone else can be fun!
Remember pay attention to the rules and no cheating!

shape builder

Using paper or card and glue or tape, can you make your own shapes?

lego lottery

Using lego you are going to build something but first you need to 'buy' your bricks. You

 have 100 points.

$2 \times 2 = 4$ points

$3 \times 2 = 6$ points

$4 \times 2 = 8$ points

$1 \times 12 = 12$ points

$1 \times 1 = 1$ point

How much do you need to build?

build something you would find in a park

Using different shaped boxes or tubs or blocks. Can you build a miniature park?

How many different shapes have you used?

What are the shapes called?

music

Listen to some music.

Listen to the beat.

Can you tap out the beat?

Can you create your own music and stick to the beat?

exercise

Can you jump while counting in 2s/4s/8s?

Can you hop while counting in 3s/6s/9s?

Can you skip while counting in 5s/10s?

Can you walk but only say aloud numbers from the 7 times table?

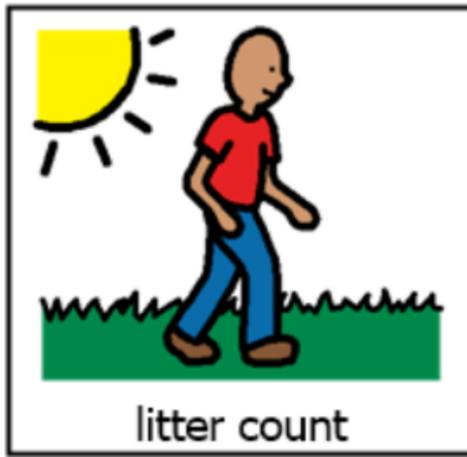

car checker

Watching from your window, can you keep a record of how many cars pass and their colour?

What was the most common colour?

Go a walk. How much litter can you count? What is the most common type of litter in your area?

When you come home can you make a table to show the litter you have seen? Ask question to see how clear your table is. For example – what was the least common type of litter found?

Going around the house, can you find any spare coins?

Can you sort the coins into 1p, 2p, 5p, 10p, 20p, 50p, £1, £2 ?

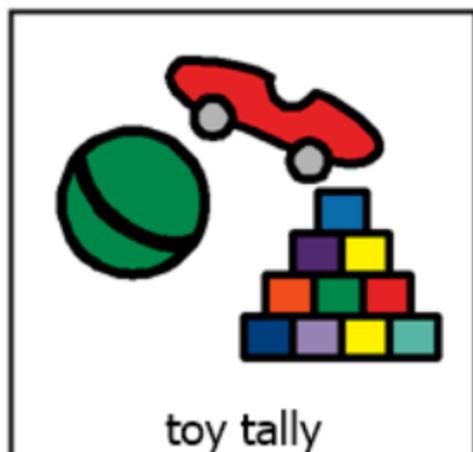

How much do you have?

How much do you have if you take away the 1ps? 2ps? etc

Using a sheet of paper, can you build a paper aeroplane? How many times did you fold it? What happens if you fold it more? Less?

Can you tell someone else how to make one?

Sort some toys into piles.

Use tally marks to show:

Different colours, shapes, sizes, where they were made,
