

How to Use Busy Things – Quick Parent Guide

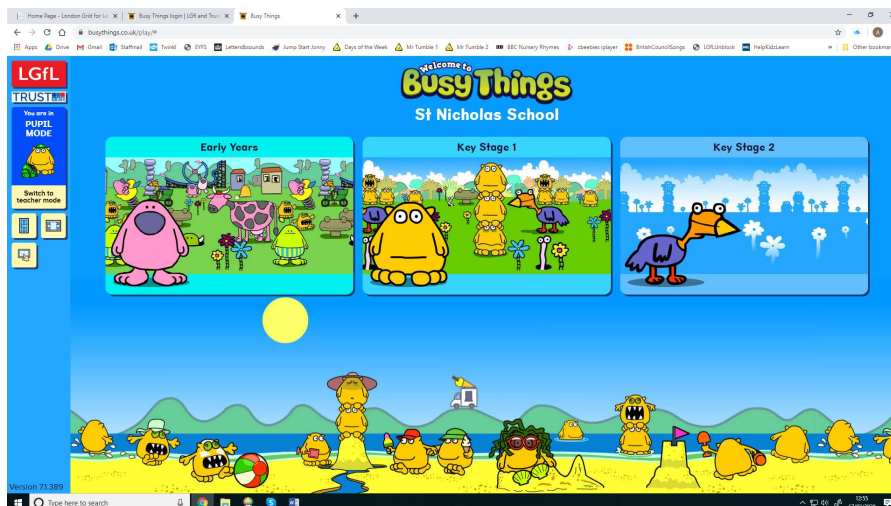

Go to <https://www.busythings.co.uk/lgfl-login/> or Search “Busy Things LGFL”

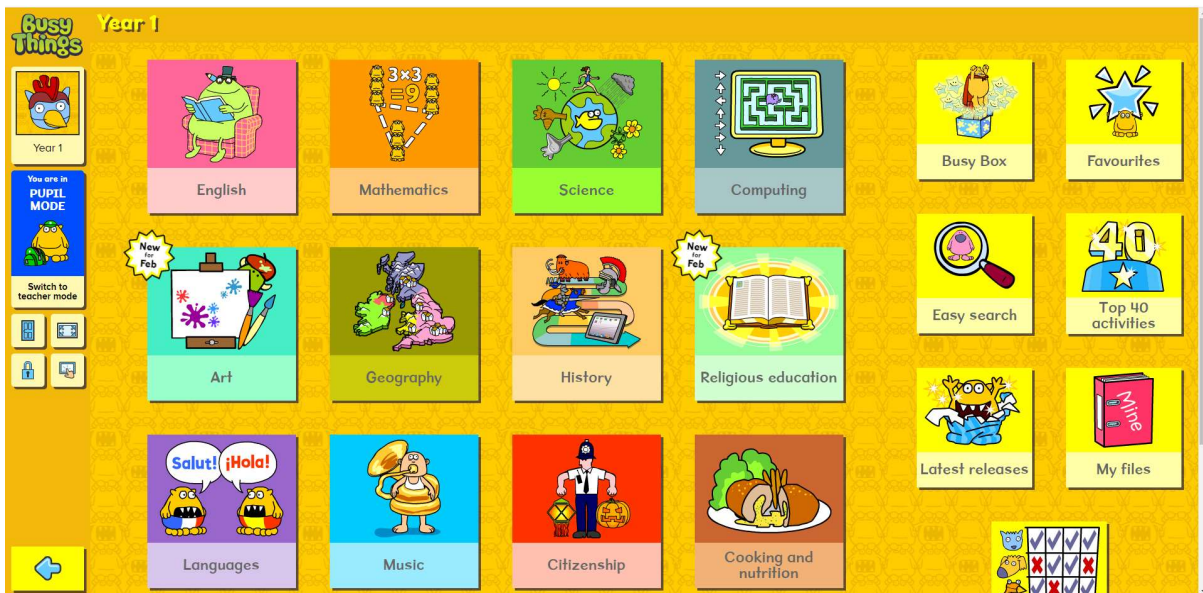

Click the red button “normal USO login”

The login page will come up:

Please type in your child’s login information (including .306) for your child. Most of our children will struggle to do this independently.

The home screen looks something like this. Your child may need to access a lower age group than their actual age, depending on their needs and developmental level.

The children can select activities. There are lots of fun games but also some interactive “worksheets” and some writing activities.
